Dear Harold
this is just one thing I do not need at this time.
the fellow whose article I read for the journal really is ticked off.
I must reply. But I have 3 other things I must do and are overdue now. I will do it in a week.
I intend to crush him. I think the editor will appreciate it too.
If you are up to it and have any suggestions on ~~Tack~~ tactics & approaches it would be appreciated.
I know you are busy.

Regards
David

P.S.
Liz did test the man at Yale with the deadly virus and is under a blood watch for 6 weeks. All routine, but seriously done by Yale
She sees nothing amiss.
